

Introduction

Liberty is an **Internet-based information service** designed to give you the confidence and freedom to conduct your financial affairs as you conduct your lifestyles. You can go anywhere, check portfolio anytime, and monitor breaking news on the Thai markets, even when traveling.

Liberty requires no software installation in your computer. Information includes Thai stock market data from **Stock Exchange of Thailand (SET)**; local and major international indices plus foreign exchange rates of major currencies from Reuters; and **news from Reuters, Bisnews and SET** -- all the most reliable sources.

You will find it so **easy and convenient** to use **Liberty**. With just a mouse click at any of the menu buttons on the left side of the screen, **Liberty** will present you the **comprehensive information which are gathered, grouped and illustrated with distinct colors**. As a result, you can keep abreast of news and prices while closely monitor the market movement.

In addition, **Liberty** makes it easy and fast for you to **navigate across the menu**. Therefore, you can retrieve warrant data or Sectoral index pertinent to a stock of your interest by clicking at the symbols presented in the **Links** window.
