Setting up the Limit Alert

1. Click at the Code column of each row. Input the instrument symbol you want to set up the alert and press **Enter**. The name of such symbol will automatically be displayed.
2. If you want to **set up the criteria using Bid price**, click at the "**Bid <=**" column and input the Bid price of your requirement.
3. If you want to **set up the criteria using Offer price**, click at the "**Offer >=**" column and input the Offer price of your requirement.
4. If you want to **set up the criteria using Traded Volume**, click at the "**Volume >=**" column and input the Traded Volume of your requirement.
5. If you want **Liberty** to beep you, simply tick the **Sound** box. And if you want **Liberty** to pop up an alert window, simply tick the **Pop Up Alert** box.

Once you are finished with the setup, click the **Save** button **to save it**. But if you want **to remove the set-up criteria**, simply click the **Remove** button.

Whenever any setup criteria is hit, **Liberty** will **beep and display the below pop-up window** no matter what menu you are at.

At the same time, **Liberty** will also display in the **Breaker** window the **details of stock or warrant that matches with the criteria you set up** so you can browse them later.
